

The map displays the Papiškių geomorphological reserve, characterized by a complex network of land parcels and water bodies. The reserve is outlined in red, and its internal features are color-coded: green for forested areas, yellow for agricultural land, and blue for water bodies. The map is overlaid with a grid of crosshairs, likely for coordinate reference. Various settlements and locations are labeled in Lithuanian, including Papiškiai, Rukainiai, and others. The map also shows the surrounding landscape, including roads and other geographical features.
